

MIKAEL RIBEIRO SIMOES

Senior Software Developer | Software Development Expert

Abu Dhabi, UAE · +971 56 766 4593 · mikaelsimoes19@gmail.com · linkedin.com/in/mikael-ribeiro

SUMMARY

Software Engineer and Solutions Instructor with 5+ years of experience in backend architecture, enterprise systems, and scalable application development. Deep expertise in .NET, ASP.NET Core, and Node.js; proven track record shipping production-grade APIs, microservices, and CI/CD pipelines. Combines hands-on engineering with technical leadership - having trained 400+ professionals and contributed to platforms serving 780,000+ users. Internationally recognized with two WorldSkills gold medals.

KEY TECHNOLOGIES

Backend C# · .NET / ASP.NET Core · Node.js · NestJS · REST APIs · GraphQL

Frontend Angular · TypeScript · React · Next.js · SASS · HTML/CSS

Databases SQL Server · Oracle DB · MySQL · MariaDB · Redis · TypeORM · Sequelize · Entity Framework

DevOps & Cloud Microsoft Azure · Azure Pipelines · GitHub Actions · GitLab CI · Docker · Kubernetes

Testing xUnit · Jest · Jasmine · Automated Testing Pipelines

Observability Grafana · Prometheus · Loki

Mobile React Native (Android & iOS)

Integrations SAP · Microservices Architecture · WordPress / CMS

EXPERIENCE

Senior Software Engineer

ACTVET · Abu Dhabi, UAE · 09/2023 - Present

- Design and deliver internal platforms using .NET, ASP.NET Core, Next.js, and SQL Server / MariaDB, supporting training management, performance tracking, and operational workflows for 200+ active users.
- Architect and build full .NET stack solutions (C#, ASP.NET Core Web API, Entity Framework Core, WinForms, xUnit) for national and international competition training programs, covering everything from database design and REST APIs to automated testing and desktop application development.
- Implement secure APIs and CI/CD pipelines via GitHub Actions and Azure Pipelines; automated testing with xUnit reduced deployment issues by 30%.
- Lead technical instruction for 400+ students and professionals in international, multicultural environments, bridging real-world engineering with structured curriculum.
- Deliver enterprise-scale software solutions aligned with multi-year business lifecycles, ensuring reliability and long-term maintainability.

Full Stack Developer

Radix Engineering & Software · Rio de Janeiro, Brazil · 01/2023 - 09/2023

- Supported 15 microservices and 3+ enterprise platforms in production; stabilized SotreqLink, serving ~5,000 internal users and field technicians.
- Resolved 50+ production incidents per month via root cause analysis, reducing recurring failures by 35% and delivering 100+ corrective fixes and feature updates.
- Built and maintained backend services with ASP.NET Core and ASP.NET MVC; optimized data access via Oracle DB and Redis, improving response times by 20-30%.
- Managed cloud infrastructure and CI/CD on Microsoft Azure; deployed monitoring stack with Grafana, Loki, and Prometheus, reducing incident detection time by 40%.
- Maintained 99.9% service availability through Docker and Kubernetes deployments; scaled automated test coverage to 75%.
- Developed and shipped a React Native mobile app for 200+ field technicians (Android & iOS); integrated SAP workflows processing thousands of financial transactions monthly.

Full Stack Developer

SENAI Alagoas · Maceio, Brazil · 04/2022 - 01/2023

- Developed 10+ web and mobile applications for the Federation of Industries; contributed to SENAI Play, a national LMS with 780,000+ active users across Brazil.

- Designed REST and GraphQL APIs with NestJS / Node.js; built responsive front-ends with Angular, TypeScript, and SASS.
- Reduced production defects by 25% through automated testing with Jest and Jasmine; managed CI/CD via GitLab CI.
- Containerized environments with Docker / Docker Compose, cutting image size by 50%; managed databases with MySQL and SQL Server.
- Applied Scrum across cross-functional teams for consistent sprint delivery; led 5+ internal training sessions on architecture and best practices.

Web Developer

SENAI Alagoas · Maceio, Brazil · 03/2021 - 04/2022

- Led end-to-end development of 4 WordPress-based projects, from requirements and implementation to deployment.
- Built modern SENAI digital platforms with Angular and NestJS (TypeScript), integrating RESTful APIs and dynamic front-end interfaces.
- Applied professional standards in version control, documentation, and code quality throughout the full software development lifecycle.

ACHIEVEMENTS

Gold Medalist, Software Applications Development · WorldSkills Americas 2021, WorldSkills International · Nov 2021

Gold Medalist, Software Applications Development · National Championship, WorldSkills / SENAI · Feb 2022

CERTIFICATIONS

Docker, Full Cycle Certification · Full Cycle · Dec 2022

NestJS, Build Modern APIs with Unit Testing · Udemy · Jul 2022

Design Patterns in C# · Udemy · Sep 2021

How to Lead and Work as a Team · LinkedIn Learning · Oct 2021

EDUCATION

Bachelor's Degree, Computer Software Engineering

UniCesumar · Dubai · 2026 - 2030 (In Progress)

Focused on software development, system architecture, algorithms, databases, and modern engineering practices.

English Language and Literature (ESL Program)

Times Idiomas · Sao Paulo · 2022 - 2024

Intensive program with focus on conversational fluency and professional communication.

Internet IT Technician, Information Technology

SENAI - Servico Nacional de Aprendizagem Industrial · Alagoas · 2019 - 2020

Technical program covering foundational IT, networking, and web development.

LANGUAGES

English - Professional Fluency · Portuguese - Native
